

GEOX R E S P I R A

It is my absolute pleasure to recommend the company "Nor Projects" which is one approved supplier of furniture for GEOX stores already for 2 years in Armenia.

The company deals with the production of furniture and exports goods to CIS and EU countries. It provides premium grade quality as well as a service of transportation of goods, installation and grants warranty.

I do confirm the quality of the service that they provide which has been proven many times within the frames of our cooperation. During our working time the company's workers have done a great job from professional and personal perspective.

We are absolutely confident about recommending this company.

Best regards,

Alessandro Giannavola
VP Retail Design & Construction
